

Job Posting

Iberdrola Renewables Taiwan

Job Title

Consents and Permitting Manager

Company Information

Iberdrola Group is one of the world's largest integrated utility companies and a world leader in renewable energy. Our focus is on wind energy, smart grids and driving the change to a cleaner, electric future, and we are investing over £7m every working day to make this happen.

In 2021, we entered the Taiwan renewable energy market with the ambition of developing and operating up to 6GW of offshore wind assets in the next 10 years, and are now actively growing our locally based project development and engineering team to lead our efforts.

Business and Department

Global Offshore Renewables Business

Job Description

The Consents and Permitting Manager is a critical role within the Offshore Renewables Business. The successful candidate will be responsible for

- Lead all project consenting processes, including pre-auction Environmental Impact Assessment approval and post-auction permits, for Iberdrola's offshore wind projects in Taiwan.
- Support project director, engineering manager and technical package leads with data and information reporting from Environmental Impact Statements.
- Support Iberdrola's government relations in Taiwan to secure the approval of relevant permits and licences.

The candidate will report into Country Manager, with multiple interfaces across the Project Development and Services teams in Taiwan and Europe.

ACCOUNTABILITIES

- Monitoring and tracking progress of pre-auction EIA review and approval, including collaborating with external consultants and producing briefing materials for EPA panel review meetings.
- Producing weekly programme reports to support the Country Manager and Engineering Manager with project control and decision making.
- Supporting outreach and engagement with government, industry, NGO and other relevant stakeholders.

Qualifications, Skills and Experience

- Experience of EIA and permitting programme management.
- Excellent communication and relationship management skills, including experience of communicating with Taiwanese regulators and local government.
- Excellent report writing, presentation skills and ability to summarise key parameters and drivers impacting progress.
- Excellent time management and planning skills, including working knowledge of Microsoft Project software.
- Ability to identify resource constraints and provide recommendations to mitigate capacity or capability gaps.
- Educated to degree level in relevant disciplines with substantial postgraduate industry experience.
- Native fluency in Mandarin and strong fluency in English.

Application Deadline

9 June 2023

Office Location

8F, No. 101, Section 2, Nanjing East Road, Zhongshan District, Taipei

Benefits and Conditions of Employment

We offer a competitive package, which includes basic salary that is based on experience and a generous annual bonus, 25 days of annual leave entitlement, group insurance and other corporate benefits.

We offer time and financial support for the successful candidate to take advantage of professional learning and development opportunities inside and outside of the organisation.

All new hires undertake a workplace induction and there are a number of mandatory e-learning courses that must be completed.

Normal working hours are 40 per week: 9am to 6pm from Monday to Friday, including one hour lunch break. Iberdrola Renewables Taiwan supports and promotes flexible working as a crucial part of our inclusive offering.

OTHER INFORMATION

No accommodation or relocation expenses are payable in connection with this position. You must have or be able to obtain a local work permit which we will sponsor.

Iberdrola Renewables Taiwan is an equal opportunities employer and does not discriminate on grounds of ethnic origin, race, religious beliefs, age, disability, gender or sexual orientation.

Application

Please send a covering letter and CV to Kevin Liu (kliu@iberdrola.es).
